EXECUTIVE SUMMARY

What this report focuses on

CANCHITA at Dempsey Hill - Best Peruvian Restaurant in Singapore's report was generated around Appointment Booking System, WhatsApp / Enquiry Automation, E-commerce Improvement, rather than as a generic website audit. Across the selected services, the highest-priority problems relate to potential customers may delay booking if they cannot schedule quickly online, leads may cool down if responses depend on manual reply speed, product decision pages may not be doing enough to create confidence before purchase. The aim of this report is to show where the business may be losing clarity, trust, search visibility, or lead momentum for the exact services being considered.

Selected services

Appointment Booking System

WhatsApp / Enquiry Automation

E-commerce Improvement

Top problems across selected services

- Potential customers may delay booking if they cannot schedule quickly online
- Leads may cool down if responses depend on manual reply speed
- Product decision pages may not be doing enough to create confidence before purchase

Recommended priority order

1. Appointment Booking System: Make booking the clearest next step for ready visitors
2. WhatsApp / Enquiry Automation: Add instant acknowledgement and after-hours response coverage
3. E-commerce Improvement: Improve product-page trust and explanation quality

SERVICE OPPORTUNITY 01

Appointment Booking System

This section focuses on reducing booking friction, giving visitors a faster path to scheduling, and reducing coordination overhead.

Severity: HIGH

Confidence: 85/100

Potential customers may delay booking if they cannot schedule quickly online

Evidence: Mobile experience could be improved for better usability.

Why it matters: The longer the path between intent and appointment, the more drop-off risk increases.

Recommended improvement: Add clearer online appointment booking paths that let visitors choose a slot without waiting for manual coordination.

SERVICE OPPORTUNITY 01

Appointment Booking System (continued)

Severity: LOW

Confidence: 80/100

Manual scheduling can consume time that should be spent on service delivery

Evidence: Call-to-action buttons are not prominent enough.

Why it matters: Back-and-forth scheduling creates avoidable admin work and slows confirmations.

Recommended improvement: Connect booking flows to a live calendar with service-specific appointment choices and automated confirmation logic.

Priority actions

1. Make booking the clearest next step for ready visitors.
2. Reduce manual scheduling through live calendar connection.
3. Protect confirmed appointments with reminders and rescheduling logic.

Expected business impact

Visitors should be able to turn intent into action faster. The team spends less time coordinating and more time handling qualified appointments.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation

This section focuses on response speed, qualification, routing, and reducing lost enquiries in WhatsApp-driven workflows.

Severity: HIGH

Confidence: 85/100

Leads may cool down if responses depend on manual reply speed

Evidence: Mobile experience could be improved for better usability.

Why it matters: Visitors who enquire through WhatsApp often expect near-immediate confirmation or direction.

Recommended improvement: Set up instant WhatsApp auto-replies with clear next steps, service routing, and after-hours coverage.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation (continued)

Severity: LOW

Confidence: 80/100

Staff may be spending time answering repetitive questions that could be automated

Evidence: Call-to-action buttons are not prominent enough.

Why it matters: Manual handling creates inconsistency and slows down the route to appointment or quote.

Recommended improvement: Use guided WhatsApp qualification prompts to capture service type, urgency, and contact details before human follow-up.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation (continued)

Priority actions

1. Add instant acknowledgement and after-hours response coverage.
2. Qualify service interest before human handover.
3. Introduce reminders for unanswered or incomplete WhatsApp leads.

Expected business impact

CANCHITA at Dempsey Hill - Best Peruvian Restaurant in Singapore should lose fewer warm leads while staff are unavailable. Enquiries reach the team in a more organised and higher-intent state.

SERVICE OPPORTUNITY 03

E-commerce Improvement

This section focuses on product trust, purchase flow, checkout friction, and revenue leakage in the buying journey.

Severity: HIGH

Confidence: 85/100

Product decision pages may not be doing enough to create confidence before purchase

Evidence: Mobile experience could be improved for better usability.

Why it matters: Weak product structure, proof, or explanation increases abandonment before checkout.

Recommended improvement: Strengthen product pages with better benefit-led descriptions, supporting visuals, proof, and clearer delivery or returns information.

SERVICE OPPORTUNITY 03

E-commerce Improvement (continued)

Severity: LOW

Confidence: 80/100

Checkout friction may be costing purchases after intent is already established

Evidence: Call-to-action buttons are not prominent enough.

Why it matters: Even small barriers near checkout can create meaningful revenue leakage.

Recommended improvement: Simplify the purchase flow, reduce unnecessary steps, and surface reassurance such as payment trust, delivery clarity, and returns information.

Priority actions

1. Improve product-page trust and explanation quality.
2. Reduce checkout friction around the final decision point.
3. Recover more abandoned purchase journeys with follow-up logic.

Expected business impact

Shoppers should feel more confident progressing toward checkout. More baskets should turn into completed purchases.

RECOMMENDED NEXT STEPS

Final action plan

1

Appointment Booking System: Make booking the clearest next step for ready visitors

The longer the path between intent and appointment, the more drop-off risk increases.

2

WhatsApp / Enquiry Automation: Add instant acknowledgement and after-hours response coverage

Visitors who enquire through WhatsApp often expect near-immediate confirmation or direction.

3

E-commerce Improvement: Improve product-page trust and explanation quality

Weak product structure, proof, or explanation increases abandonment before checkout.

RECOMMENDED NEXT STEPS

Final action plan (continued)

Suggested next step

If useful, I can walk you through the highest-priority service opportunities and outline a practical next-step plan on a short call. Ocia Studio can use the selected services in this report as the priority discussion points, rather than presenting a generic website pitch.
