EXECUTIVE SUMMARY

What this report focuses on

KOMA Singapore's report was generated around Appointment Booking System, WhatsApp / Enquiry Automation, SEO, rather than as a generic website audit. Across the selected services, the highest-priority problems relate to potential customers may delay booking if they cannot schedule quickly online, leads may cool down if responses depend on manual reply speed, the website may not be sending enough local service relevance signals. The aim of this report is to show where the business may be losing clarity, trust, search visibility, or lead momentum for the exact services being considered.

Selected services

Appointment Booking System

WhatsApp / Enquiry Automation

SEO

Top problems across selected services

- Potential customers may delay booking if they cannot schedule quickly online
- Leads may cool down if responses depend on manual reply speed
- The website may not be sending enough local service relevance signals

Recommended priority order

1. Appointment Booking System: Make booking the clearest next step for ready visitors
2. WhatsApp / Enquiry Automation: Add instant acknowledgement and after-hours response coverage
3. SEO: Prioritise dedicated pages for the most commercially important services

SERVICE OPPORTUNITY 01

Appointment Booking System

This section focuses on reducing booking friction, giving visitors a faster path to scheduling, and reducing coordination overhead.

Severity: HIGH

Confidence: 61/100

Potential customers may delay booking if they cannot schedule quickly online

Evidence: CAPTCHA implementation may hinder user experience.

Why it matters: The longer the path between intent and appointment, the more drop-off risk increases.

Recommended improvement: Add clearer online appointment booking paths that let visitors choose a slot without waiting for manual coordination.

Severity: LOW

Confidence: 58/100

Manual scheduling can consume time that should be spent on service delivery

Evidence: Menu visibility is not prominent.

Why it matters: Back-and-forth scheduling creates avoidable admin work and slows confirmations.

Recommended improvement: Connect booking flows to a live calendar with service-specific appointment choices and automated confirmation logic.

SERVICE OPPORTUNITY 01

Appointment Booking System (continued)

Priority actions

1. Make booking the clearest next step for ready visitors.
2. Reduce manual scheduling through live calendar connection.
3. Protect confirmed appointments with reminders and rescheduling logic.

Expected business impact

Visitors should be able to turn intent into action faster. The team spends less time coordinating and more time handling qualified appointments.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation

This section focuses on response speed, qualification, routing, and reducing lost enquiries in WhatsApp-driven workflows.

Severity: HIGH

Confidence: 61/100

Leads may cool down if responses depend on manual reply speed

Evidence: CAPTCHA implementation may hinder user experience.

Why it matters: Visitors who enquire through WhatsApp often expect near-immediate confirmation or direction.

Recommended improvement: Set up instant WhatsApp auto-replies with clear next steps, service routing, and after-hours coverage.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation (continued)

Severity: LOW

Confidence: 58/100

Staff may be spending time answering repetitive questions that could be automated

Evidence: Menu visibility is not prominent.

Why it matters: Manual handling creates inconsistency and slows down the route to appointment or quote.

Recommended improvement: Use guided WhatsApp qualification prompts to capture service type, urgency, and contact details before human follow-up.

SERVICE OPPORTUNITY 02

WhatsApp / Enquiry Automation (continued)

Priority actions

1. Add instant acknowledgement and after-hours response coverage.
2. Qualify service interest before human handover.
3. Introduce reminders for unanswered or incomplete WhatsApp leads.

Expected business impact

KOMA Singapore should lose fewer warm leads while staff are unavailable. Enquiries reach the team in a more organised and higher-intent state.

SERVICE OPPORTUNITY 03

SEO

This section focuses on search visibility, service relevance, on-page structure, and local SEO.

Severity: HIGH

Confidence: 61/100

The website may not be sending enough local service relevance signals

Evidence: CAPTCHA implementation may hinder user experience.

Why it matters: If pages do not clearly combine service intent with location intent, KOMA Singapore may miss searches from nearby prospects.

Recommended improvement: Create or strengthen location-aware service headings, copy, and metadata around the highest-intent service plus location combinations.

SERVICE OPPORTUNITY 03

SEO (continued)

Severity: LOW

Confidence: 58/100

Important services may not have enough dedicated search-targeted content

Evidence: Menu visibility is not prominent.

Why it matters: Thin or overly generic service content makes it harder to rank for the searches that matter most.

Recommended improvement: Build dedicated service pages with stronger headings, FAQs, internal links, and service-specific copy written around real search intent.

Priority actions

1. Prioritise dedicated pages for the most commercially important services.
2. Improve titles, headings, and local language around service plus location intent.
3. Add FAQ and internal-linking support to strengthen search context.

Expected business impact

Search engines should find it easier to connect KOMA Singapore to local service searches. Core services become easier to discover organically and easier for visitors to evaluate.

RECOMMENDED NEXT STEPS

Final action plan

1

Appointment Booking System: Make booking the clearest next step for ready visitors

The longer the path between intent and appointment, the more drop-off risk increases.

2

WhatsApp / Enquiry Automation: Add instant acknowledgement and after-hours response coverage

Visitors who enquire through WhatsApp often expect near-immediate confirmation or direction.

3

SEO: Prioritise dedicated pages for the most commercially important services

If pages do not clearly combine service intent with location intent, KOMA Singapore may miss searches from nearby prospects.
