Conversion Rate Optimisation

Lead Generation

SEO

Top problems across selected services

- Ready-to-enquire visitors may not know what to do next quickly enough
- The site may be relying too heavily on visitors contacting immediately
- The website may not be sending enough local service relevance signals

Recommended priority order

1. Conversion Rate Optimisation: Make the primary enquiry action unmistakable above the fold
2. Lead Generation: Add a softer lead-capture option for visitors not ready to book yet
3. SEO: Prioritise dedicated pages for the most commercially important services

SERVICE OPPORTUNITY 01

Conversion Rate Optimisation

This section focuses on CTA clarity, friction reduction, trust near conversion points, and clearer next steps. Limited Conversion Rate Optimisation-specific evidence was available from the current crawl, so this section focuses on visible on-page opportunities only.

Severity: HIGH

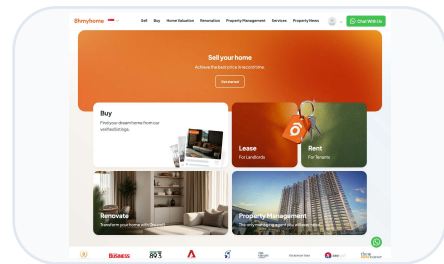

Confidence: 58/100

Ready-to-enquire visitors may not know what to do next quickly enough

Evidence: Optimize Lead Forms.

Why it matters: If the next step is unclear, traffic can reach the site but fail to turn into actual enquiries.

Recommended improvement: Introduce one clear primary CTA above the fold and repeat it consistently with action-led wording such as book, enquire, or request.

SERVICE OPPORTUNITY 01

Conversion Rate Optimisation (continued)

Severity: HIGH

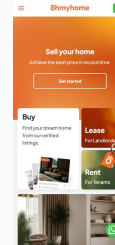

Confidence: 58/100

The enquiry path may contain more friction than it should

Evidence: Optimize Lead Forms.

Why it matters: Long forms, weak contact visibility, or too many choices can cause leads to drop before submission.

Recommended improvement: Shorten forms, reduce competing CTA patterns, and make phone or WhatsApp actions more visible on mobile.

Priority actions

1. Make the primary enquiry action unmistakable above the fold.
2. Reduce form and navigation friction around conversion points.
3. Add trust cues immediately beside the highest-value CTA.

Expected business impact

Visitors with intent should need less effort to move into contact. The website should convert more interest into trackable enquiries.

SERVICE OPPORTUNITY 02

Lead Generation

This section focuses on lead capture, enquiry pathways, softer conversion offers, and measurable follow-up. Limited Lead Generation-specific evidence was available from the current crawl, so this section focuses on visible on-page opportunities only.

Severity: HIGH

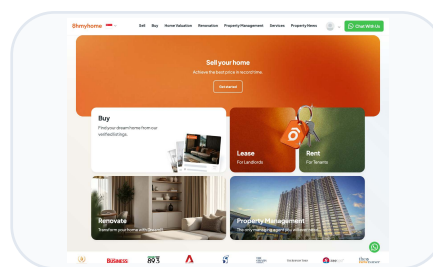

Confidence: 58/100

The site may be relying too heavily on visitors contacting immediately

Evidence: Optimize Lead Forms.

Why it matters: Not every interested visitor is ready to book or call on the first visit, so some leads may disappear untracked.

Recommended improvement: Add a consultation request, quote request, or softer lead-capture offer for visitors who want more information first.

SERVICE OPPORTUNITY 02

Lead Generation (continued)

Severity: HIGH

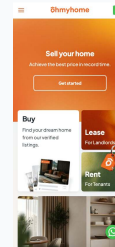

Confidence: 58/100

There may not be enough visible lead-capture routes for mobile visitors

Evidence: Optimize Lead Forms.

Why it matters: If visitors need to search for forms or contact options, enquiry volume can suffer.

Recommended improvement: Add a clearer WhatsApp prompt, shorter enquiry form, and stronger CTA placement on the first mobile screen and service sections.

Priority actions

1. Add a softer lead-capture option for visitors not ready to book yet.
2. Improve mobile visibility for form, phone, and WhatsApp actions.
3. Measure every meaningful lead action so performance can be improved.

Expected business impact

More interested visitors should become trackable leads instead of bouncing. Lead capture becomes easier for visitors who already show intent.

SERVICE OPPORTUNITY 03

SEO

This section focuses on search visibility, service relevance, on-page structure, and local SEO.

Severity: HIGH

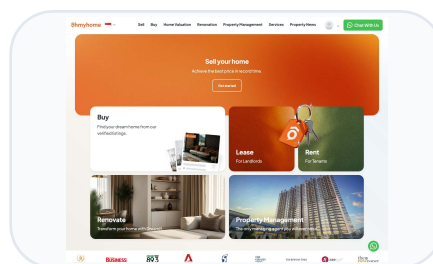

Confidence: 58/100

The website may not be sending enough local service relevance signals

Evidence: [object Object].

Why it matters: If pages do not clearly combine service intent with location intent, Ohmyhome - Real Estate Services may miss searches from nearby prospects.

Recommended improvement: Create or strengthen location-aware service headings, copy, and metadata around the highest-intent service plus location combinations.

SERVICE OPPORTUNITY 03

SEO (continued)

Severity: LOW

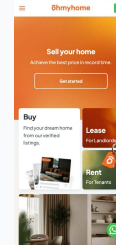

Confidence: 58/100

Important services may not have enough dedicated search-targeted content

Evidence: [object Object].

Why it matters: Thin or overly generic service content makes it harder to rank for the searches that matter most.

Recommended improvement: Build dedicated service pages with stronger headings, FAQs, internal links, and service-specific copy written around real search intent.

Priority actions

1. Prioritise dedicated pages for the most commercially important services.
2. Improve titles, headings, and local language around service plus location intent.
3. Add FAQ and internal-linking support to strengthen search context.

Expected business impact

Search engines should find it easier to connect Ohmyhome - Real Estate Services to local service searches. Core services become easier to discover organically and easier for visitors to evaluate.

RECOMMENDED NEXT STEPS

Final action plan
